

LEADERSHIP *unstuck!*

Effective, *unstuck!* leaders make a real difference both in the success of businesses and in the lives of the greatest asset of a thriving business—its people. This seminar leads participants to clearly understand an extremely easy and best practice approach to leadership. This comprehensive model can be applied to all levels of management within an organization. The leadership model aligns with individual and business values and features collaborative leadership.

This is a hands-on, practical, results oriented leadership seminar featuring collaborative exercises, inspirational clips, and motivating activities. Attendees will walk away with a specific development plan and actions relative to closing the leadership gaps in their own current practices

What You Will Learn

You will learn to understand your leadership roles in:

- Modeling the way to collaborative leadership
- Clarifying values and setting the example
- Motivating teams and sharing the vision,
- Discovering ways to enable others to act effectively
- Allowing others to confidently take managed risks a
- Recognizing others and celebrating victories.

You will also discover:

- Leadership definitions
- Critical factors to ensure success
- How to develop a personalized leadership development plan

How You Will Benefit

You will not only be able to enhance the leadership skills you already have, but you will earn the theories behind the collaborative leadership trend. You will learn how to motivate others and sustain their commitment. You will benefit in professional leadership as well as personal leadership. Your organization will benefit from your leadership skills and the ability you gain to share the vision of leadership throughout the company.
